

GRAB-ME

INFORMATION

Grab-Me is a collection of twenty six three dimensional steel tube letters/grab bars, for use in swimming pools, spas, bathrooms etc, or as indoor and outdoor signage.

They are available exclusively from www.andrewbyrom.com (direct from the designer).

Each made-to-order letter is manufactured using 304 Stainless Steel Tubing with a 180 Grit Brushed Finish. The tube measures 1.5 diameter with a wall thickness of .065 inches, making it a very sturdy and durable product. The wall brackets are also 304 series stainless steel pre-drilled for easy installation. This high quality stainless product will not rust. It can be used indoors or outdoors as decorative or ornamental accents or as functional hand rails. This product is special order only and will be designed around your specific needs. This is a non stock item and is hand crafted, please allow a minimum of 6 – 9 weeks from time of order to completion.

The designer will work personally with each individual customer/client to ensure their needs and expectations are met.
