

INTERIORS LIGHT

INFORMATION

Interiors Light is a collection of twenty six three dimensional neon letters. They are available exclusively from www.andrewbyrom.com (direct from the designer).

Each piece is made to order and can be customized for specific display purposes. They are constructed by hand in 12 mm neon tubing by a certified neon manufacturer.

Most of the letters are free standing and can be displayed either on a flat surface or mounted to a wall*. *Interiors Light* is intended for commercial use; to be installed in a permanent, safe, fixed position. Due to their fragile nature and the presence of an electrical source they should be displayed in a position where they will be undisturbed. Neon is glass and should be treated as fragile.

The designer will work personally with each individual customer/client to ensure their needs and expectations are met.

Email: contact@andrewbyrom.com

* All letters are freestanding except r, p and q; which can only be displayed wall-mounted. Several letters (f, i, j, l and t) can be displayed freestanding on a flat surface, but they need to be securely fixed in place.
